BEHAVIOUR POLICY

POLICY OWNER	Rory Horseman, Owner, Player 2 Level Up
SAFEGUARDING LEAD	Rory Horseman
DATE ADOPTED	11 November 2026
NEXT REVIEW	11 November 2027

1. OUR APPROACH

At Player 2 Level Up, we recognise that every young person is different and may communicate, express emotions and respond to challenges in different ways.

We aim to provide a welcoming, inclusive and non-judgemental environment where young people feel respected, supported and safe. We take a flexible approach to behaviour, considering each individual's needs and circumstances rather than expecting everyone to behave in the same way.

We use a positive and restorative approach, seeking to understand what has happened, support the young person and work with parents or carers to find a constructive resolution.

This policy applies in all Player 2 Level Up sessions and across the Player 2 Discord server, including text chat, voice channels, comments and clip uploads.

2. EXPECTED BEHAVIOUR

We encourage everyone involved in our gaming sessions to:

- Treat others with respect and kindness.
- Communicate in a way that does not threaten, bully or deliberately harm others.
- Respect personal boundaries and privacy.
- Follow reasonable instructions intended to keep sessions safe.
- Use gaming platforms and communication channels appropriately.

We understand that frustration, emotional distress or difficulties with communication may affect behaviour. We will respond with patience and understanding while maintaining appropriate boundaries to protect everyone involved.

3. RESPONDING TO BEHAVIOUR CONCERNS

When behaviour becomes concerning or disrupts a session, mentors will respond calmly and proportionately. Depending on the circumstances, they may:

- Offer reassurance, support or a break.
- Explore what has happened and what the young person may need.
- Agree on a different activity or approach.
- Explain boundaries clearly and respectfully.
- Speak with parents or carers to work towards a resolution.

Where appropriate, we will consider individual needs, including communication differences, neurodivergence, anxiety or difficulties with emotional regulation.

4. UNSAFE OR HARMFUL BEHAVIOUR

Bullying, harassment, discrimination, threats, deliberate harm or other behaviour that puts someone at risk will be taken seriously.

Mentors may pause or end a session if necessary to maintain safety. Significant incidents will be recorded and reported in line with our safeguarding procedures.

In the Discord server, moderators may remove messages or uploads, mute or time out a member, or remove them from the server if necessary to keep others safe.

Discord's AutoMod may block messages automatically, for example harmful language or attempts to share phone numbers or other contact details. Moderators are alerted and may follow up with the young person, and with their parent or carer where needed.

Where behaviour raises a safeguarding concern, the Safeguarding and Child Protection Policy will take priority. Any response will aim to protect those involved, address the concern fairly and reduce the likelihood of it happening again.

5. WORKING WITH PARENTS AND CARERS

We believe that positive communication with parents and carers is important when addressing ongoing or significant behaviour concerns.

Where appropriate, we will discuss concerns, share relevant information and work together to identify helpful strategies. Our aim is to support the young person and reach a constructive outcome, rather than to punish or shame them.

6. REVIEW

This policy will be reviewed annually or sooner if required. It should be read alongside our Safeguarding and Child Protection Policy, Online Safety Policy and Staff Code of Conduct.

Approved by Rory Horseman, Owner, Player 2 Level Up, on 11 November 2026. Next review due 11 November 2027.
