PLAYER 2 LEVEL UP · POLICY

DATA PROTECTION POLICY

POLICY OWNER	Rory Horseman, Owner, Player 2 Level Up
SAFEGUARDING LEAD	Rory Horseman
DATE ADOPTED	11 November 2026
NEXT REVIEW	11 November 2027

1. OUR COMMITMENT

Player 2 Level Up respects the privacy of the young people, parents, carers and staff we work with. We collect only the information we need, keep it safe and use it fairly and lawfully.

This policy explains how we handle personal information in line with the UK General Data Protection Regulation (UK GDPR), the Data Protection Act 2018 and the Data (Use and Access) Act 2025.

Player 2 Level Up is the data controller for the personal information we hold. Rory Horseman, as owner, is responsible for data protection.

2. OUR DATA PROTECTION PRINCIPLES

We will make sure that personal information is:

- Used fairly, lawfully and openly.
- Collected for clear purposes and not used for anything unrelated.
- Relevant and limited to what we need.
- Accurate and kept up to date.
- Kept no longer than necessary.
- Kept secure.

We are responsible for following these principles and must be able to show how we do so.

3. WHAT INFORMATION WE COLLECT

Parents and carers

- Name, email address and contact number.
- Membership and payment status. Card payments are handled by Whop; we do not see or store full card details.
- Parental consent and the answers given when signing up.

Young people

- First name, age group and Discord username.
- The highest PEGI age rating their parent or carer allows.
- Information about individual needs, including SEND, that a parent or carer chooses to share so we can support the young person.

- Messages, posts and activity in the Player 2 Discord server, and notes from One-2-One and Squad Up sessions.
- An activity log of when members join, leave or move between voice channels, and of messages that are edited or deleted, kept by the Carl-bot moderation bot.
- Messages blocked or flagged by Discord's AutoMod.
- Recordings of One-2-One and Squad Up sessions.
- Safeguarding records, where a concern arises.

Staff, mentors and volunteers

Information needed for recruitment, safer recruitment checks and working arrangements, as set out in our Safer Recruitment Policy.

Mailing list

Names and email addresses of people who ask to hear about Player 2 Level Up.

4. WHY WE USE INFORMATION AND OUR LAWFUL BASIS

We only use personal information where we have a lawful basis to do so:

- **Running memberships and sessions:** to provide the service a parent or carer has signed up for (contract).
- **Keeping young people safe:** moderating the Discord server (including AutoMod and the activity log), keeping safeguarding records and sharing concerns with the right services (legal obligation and legitimate interests).
- **Recording One-2-One and Squad Up sessions:** to protect young people and Rory during the sessions he runs (legitimate interests). Parents and carers are told about recording when they sign up for membership and when they book, and agree to it when they book.
- **Health, disability and SEND information:** this is special category information. We only use it with the explicit consent of a parent or carer, or where it is necessary to safeguard a child.
- **News and updates:** only with consent. People can unsubscribe at any time.
- **Accounts and tax records:** to meet our legal obligations.

We never sell personal information or use it to build advertising profiles.

5. CHILDREN'S INFORMATION

We take extra care with information about children and young people.

- Sign-up is completed by a parent or carer on the young person's behalf.
- We collect only the information about young people that we need to run the community and keep it safe.
- We explain how we use their information in clear, age-appropriate language.
- Young people's personal information is never made public. Photos, clips and recordings are handled in line with our Online Safety Policy.

- Young people can make requests about their own information where they are mature enough to understand their rights. We will usually involve their parent or carer.

6. WHO WE SHARE INFORMATION WITH

We only share personal information where it is necessary:

- **Service providers:** the companies that help us run Player 2 Level Up, including Whop (memberships, payments and sign-up answers), Discord (our community platform), Carl-bot (Discord moderation and activity log), Craig (session recording) and Google (email, Google Meet calls and secure storage). Some of these providers store information outside the UK. Where they do, we rely on the protections in their terms, such as UK adequacy regulations or approved data transfer agreements.
- **Safeguarding:** children's social care, the police, the Local Authority Designated Officer (LADO) or our external safeguarding adviser, where this is needed to protect a child. This can happen without consent where the law allows.
- **Legal requirements:** where we are required to by law, for example to HMRC or under a court order.

We do not share personal information with anyone for their own marketing.

7. KEEPING INFORMATION SECURE

- Accounts that hold personal information (including Whop, Discord and Google) are protected with strong passwords and two-step verification.
- Only people who need information for their role can access it.
- Safeguarding records are kept separately, in a restricted folder.
- Session recordings are stored only in Player 2 Level Up's secure storage, never on personal devices or accounts.
- Devices used for Player 2 Level Up must be locked with a password or PIN and kept up to date.
- We avoid printing personal information. Any paper copies are kept locked away and shredded when no longer needed.
- Personal information is never shared through personal social media accounts.

8. HOW LONG WE KEEP INFORMATION

- **Membership and contact details:** while the membership is active and for up to 12 months after it ends.
- **Financial records:** six years, as required for tax purposes.
- **Discord moderation records, including the activity log and AutoMod alerts:** as long as needed for moderation and safety, reviewed at least every 12 months.
- **One-2-One and Squad Up recordings:** 30 days, then deleted. Craig, the recording bot, deletes its own copy within 7 days. If a recording is needed because a concern has been raised, it becomes part of the safeguarding record and is kept for as long as that record.

- **Safeguarding records about a young person:** kept securely until their 25th birthday, then reviewed. Records of serious concerns may be kept longer where safeguarding guidance requires it.
- **Records of allegations about an adult:** until the person reaches state pension age, or for 10 years, whichever is longer.
- **Recruitment records:** as set out in our Safer Recruitment Policy.
- **Mailing list:** until the person unsubscribes.

When information is no longer needed, it is securely deleted or shredded.

9. YOUR RIGHTS

Under data protection law, people have the right to:

- Be told how their information is used.
- Ask for a copy of their information.
- Have incorrect information corrected.
- Ask for their information to be deleted.
- Ask us to limit or stop using their information in some situations.
- Object to their information being used, including for marketing.
- Withdraw consent at any time, where we rely on consent.

Parents and carers can make requests on behalf of their child. Requests can be made by email to player2levelup@gmail.com. We may need to confirm the person's identity first.

We will respond within one month. For complex requests this can be extended by up to two further months, and we will explain why.

10. DATA BREACHES

A data breach is when personal information is lost, stolen, sent to the wrong person or accessed without permission.

Anyone who notices a possible breach must tell Rory Horseman straight away.

We will act quickly to contain the breach, record it and assess the risk. Where required, we will report it to the Information Commissioner's Office (ICO) within 72 hours of becoming aware of it. If there is a high risk to the people affected, we will tell them without undue delay.

11. COMPLAINTS

If someone is unhappy with how we have handled their personal information, they can complain to us by email to player2levelup@gmail.com, or in any other way that suits them.

We will acknowledge the complaint within 30 days, look into it without undue delay, keep the person updated and tell them the outcome.

People also have the right to complain to the Information Commissioner's Office: ico.org.uk or 0303 123 1113.

12. RESPONSIBILITIES AND TRAINING

Rory Horseman, as owner, is responsible for making sure this policy is followed, for registering with the ICO and paying the data protection fee where required, and for keeping this policy up to date.

Because Player 2 Level Up offers an online service to children, Rory will complete a data protection impact assessment (DPIA) covering the Discord server, the activity log and session recordings, and review it whenever the way we use information changes.

Everyone working on behalf of Player 2 Level Up must follow this policy, complete data protection training as part of their induction and report any concerns or breaches promptly.

13. POLICY REVIEW

This policy will be reviewed annually or sooner if the law, guidance or the way we work changes.

It should be read alongside our Safeguarding and Child Protection Policy, Online Safety Policy, Staff Code of Conduct and Safer Recruitment Policy.

Approved by Rory Horseman, Owner, Player 2 Level Up, on 11 November 2026. Next review due 11 November 2027.
